

Pan Ming Huang Prize

International Union of Soil Science

Commission 2.5. Soil chemical, physical and biological interfacial reactions

In honor of Dr. P.M. Huang for his pioneering work and leadership in this field, prize is awarded every 4 years by IUSS Commission 2.5 significant contributions to advancing the understanding of the interactions between soil minerals, soil organic matter, and soil organisms.

The successful candidate will be elected in recognition of his/her scientific research, or a publication that is deemed to have made significant contributions to advancing the understanding of the interactions between soil minerals, soil organic matter and soil organisms.

The publication may be books, book chapters, review articles, or a peer reviewed research articles published in a scientific journal. The publication must have been printed (on the web or in print) for at least 4 years, so as to permit sufficient time for the Award Committee to evaluate its impact.

Preference will be given to young or mid-career candidates, and to candidates who have been active in ISMOM.

The selected scientist will be awarded at ISMOM 2024 (Oct 15-18, Tsukuba, Japan). More info: ismom2024.org

To apply, please prepare the following items and send to ISMOM2024-HuangPrize@ml.affrc.go.jp (deadline: **May 15th, 2024**)

- The candidate's name, position and contact information
- A copy of the candidate's Curriculum Vitae
- List of the five most important publications authored by the nominee that in the nominator's opinion had a significant impact in the focus areas of ISMOM
- An explanation of what the candidate has accomplished and of how this has contributed to the scientific endeavors of ISMOM (Maximum of one page of text, 12-point font size)
- Name, position and contact information for nominator

- Note that candidates can apply without being nominated. However, we request the name of the nominator who recommends the candidate.

- For more details on PM Huang Prize and the application process, please see the link below.
